For astonishing motivational events  
with powerful results...

**Call Unique Solutions**

**Finding the hook that will catch the attention of your audience is our special trick; we're great at it. Whatever the size of the event we deliver it with passion: your audience get the surprise, laughter and fun and your organisation gets the business outcomes we've agreed.**

**Businesses have many good reasons to put on an event:-**

- Reward and recognition
- Celebration of success
- Sales drive
- Employee motivation
- Building loyalty
- Informal teambuilding

Once we've worked with you to agree objectives and understand your requirements, we'll come up with a range of imaginative, exciting and unique solutions, turning your choice into an inspirational and unforgettable event.

**And there are many ways we can help:-**

- Outdoor or indoor
- Challenging physical activities
- Stimulating mental games
- Formal or informal
- Motivational speakers
- Music, dance, casino, cabaret, country fair, circus...
- And much, much more!

*Siemens say: "Right from the start of the project I had complete confidence in your ability to both design and deliver an effective event with the right amount of challenge, learning and fun involved. I have had excellent feedback from the team and the managers and congratulate you and your team on your seamless approach to event management."*

**Sally-Anne Borrill - Personnel, Sales and Marketing**

*Thorntons say: "It was high risk as we had never had all 400 Shop Managers together before. After dinner, within the first three songs of the first set, there were in excess of 300 people dancing. That's how much everyone had enjoyed the day."*

**Peter Baldwin - Operations Manager**

*Boots say: "Unique Solutions organised a summer activity event for over 300 people in less than three weeks, which in itself is a fantastic achievement, but add to that the success of the day and it's really amazing. We've received great feedback from our people "the best ever event", "when can we hold another day like this?"*
